Prince's Annual Catalogue of
Excellent Vegetable and other Seeds...

62.61

To - Prince

DECEPTION.

The Subscribers caution the public against a spurious catalogue, pretending to emanate from this establishment, issued by a person named Garretson, (formerly a clerk in their employ) who has no Nursery whatever, and who has no authority to use their names or the name of this establishment, and they disclaim all connection with him of any kind whatsoever, and any such use of our names is a fraud upon us and a deception on the public.

WILLIAM PRINCE.
ALFRED S. PRINCE.

1842 & 1843.

PRINCE'S ANNUAL CATALOGUE

OF
ESCULENT VEGETABLE AND OTHER SEEDS

OF THE
CHOICEST AMERICAN AND IMPORTED VARIETIES.

LINNÆAN BOTANIC GARDEN AND NURSERIES,
FLUSHING, NEAR NEW YORK.

All orders are to be addressed to Wm. R. Prince & Co., and no other person whatever in this town is authorised to receive any orders for this Establishment.

N. B. The seeds are of the finest quality, and such as will recommend themselves. They possess the advantage of being raised under our own observation, or when imported from confidential correspondents who grow them expressly for us, of being tested to our satisfaction, and their accuracy and vitality are therefore expressly guaranteed. The imported seeds are mostly obtained from the south of Europe, where they become so well matured, that they preserve their vitality far better than English seeds, the latter being grown in so humid a climate. The Catalogue will be found to contain many new and very choice varieties never before offered to the public, and incomparably superior to many of the old varieties; and it is intended to enrich this branch of the business with the same zeal which has been extended to the other departments. A Supplementary Catalogue is annexed, enumerating above 600 varieties of Annual, Biennial, and Perennial Flower Seeds, very many of which are of extreme rarity; and they being mostly collected from Plants in this establishment, their excellence may be relied on. The principal object in view is to furnish venders of Seeds with wholesale qualities at reasonable rates, but to accommodate our correspondents we cannot object to furnish smaller parcels for family gardens when applied for. Specimen beds are sown of every variety, for the inspection of visitors.

The prices are fixed at the lowest Cash rates, but where a draft at 90 days or 4 months is sent with the order or the payment is satisfactorily arranged otherwise, a credit mutually convenient will be allowed. All orders for Seeds should be sent direct by Mail.

The Books and Catalogues can be transmitted by mail, at a postage of 1½ to 2½ cents per sheet.

ESCULENT VEGETABLE, FIELD, AND FLOWER SEEDS.

The Proprietors announce to all venders of Seeds, and to those who may desire to undertake such business, that they will supply every variety desirable at very low rates and at a liberal credit, and the wholesale prices are so moderate, that they allow a great profit to the retailer, it being the intention to render this branch of business profitable by its great extent, and not by enhanced prices.

Every person desirous to engage in the sale of the above articles, will, on application receive all the information requisite to the object, and such an establishment ought to exist in every town in the Union. The present period is particularly eligible for forming arrangements for business, preparatory to the regular sales.

Where persons are not sufficiently conversant with the subject to make selection of the varieties best suited to their respective locations, and to proportion the quantities in accordance with the usual demand; such selection will be made by us if desired.

Bulbous roots, Dahlias, Pæonies, &c., being usually vended in a dry state, can with perfect convenience be made objects of sale in Seed stores, and they will be supplied at so liberal a discount, as to make their sale an object of importance. The period of sale is from the 1st of October to the 1st of May—but Dahlias will succeed if not planted till

the 1st of June. Double Dahlias, of named varieties, selected by the Proprietors, will be supplied at \$3, \$4, 5 and \$6 per dozen, according to quality and rarity, and these can be retailed at 100 per cent. profit. The reduced prices for Bulbous Flower Roots, by the dozen, and in assortments are stated in the New Catalogue, and the retail profit thereon is from 25 to 100 per cent.

Great attention has been paid to obtaining from foreign countries the finest Agricultural Seeds, among which are the following:—Pacey's and Scotch Perennial Rye Grass; Italian Rye Grass; English Potato Oats, weighing 44 lbs. per bushel; Early Angus, and Hopetoun Oats, superior to any others in Europe; English, French, and Dutch White Clover Seed; Provence Lucerne, the finest known; Trifolium Incarnatum, or Crimson Clover, very early; Taylor's Fortyfold, Early Nonpareil, and other fine Potatoes; Large White, and Large Yellow Sugar Beet, and Mangold Wurzel; Superior Purple-top Swedish Turnip, or Ru-a-Baga; Large White and Large Yellow Field Carrots; the best kind of Field Turnips, and Cabbages for Cattle, &c. The seeds of these can be furnished in large quantities, and a difference in price is of course made when very large parcels are desired, and where the purchase is made for cash, a discount will be allowed. Those who wish it, can forward lists stating quantities desired, &c.; which will be priced by us, and returned by the first mail.

Some explanation may be requisite in regard to the course adopted in making sales to venders. The seeds are usually supplied by the pound or bushel; but of the higher priced vegetable seeds, and of such as are in but little request, parcels of half and quarter pound, and of half, quarter and eighth bushel will be supplied on similar terms.

Garden Seeds will also be put up in small parcels of 6 and 12 cents each, and labelled ready for retailing and these will be supplied at a large discount.

The prices here named are rated very low for Cash, but where the arrangement for payment is perfectly satisfactory, a liberal credit will be allowed, and on this and every other subject, the suggestions of correspondents will receive full consideration. The different treatises herein enumerated, will be supplied to venders at 25 per cent. discount. This Seed Catalogue contains the lowest New York retail prices by the oz quart, &c., as a guide to venders. Seeds of the new crop can be supplied in August and September, and Turnip seeds, and some other kinds, can be furnished the last of June. When so desired, boxes of assorted Seeds can be supplied, selected to suit the climate of any part of North or South America, the West Indies, or elsewhere, and of any value from \$5 to \$100.

Implements of Husbandry and Garden Tools, of every description; Agricultural and Horticultural Books, can be supplied to any extent.

The Proprietors have further to state, that their Fruit and Ornamental Trees, &c. are of large size and vigorous growth, and superior to any before offered to the public. The establishment contains, at the present period, more than a million of Trees and Plants, and the Proprietors are willing to enter into arrangements of the most liberal description as to prices, with all such persons as desire large quantities of Trees, &c.; and to those proprietors of Nurseries, who wish to extend their collection, and such other persons as wish to establish *New Nurseries*, a very liberal discount will be made. Any persons who are desirous to act as agents for receiving orders for Trees, in Towns where no agency at present exists, will please to communicate their views in regard thereto. If any correspondents have raised seeds of very superior Vegetables, &c. they will please communicate the fact.

REMARKS.—All orders for Fruit and Ornamental Trees, Greenhouse Plants, Bulbous Flowers, Dahlias, or Seeds, must be sent, *direct to us, or through a regularly authorized agent*. Every invoice transmitted by us will have a printed heading and our signatures, to prove it genuine, and we assume no guarantee whatever, where such an invoice cannot be produced. We mention these cautions for good and conclusive reasons, and we most particularly enjoin their strict observance on Purchasers. When orders are sent, directions should be very precisely given how the packages are to be marked, and by what route or conveyance they are to be forwarded, &c. Orders, from a distance, will always receive the utmost attention, both as to packing and forwarding, and it is only requisite for persons sending orders, to specify the extent of land and water carriage, and the articles will be packed accordingly.

When cash is remitted with the orders for Trees and Plants, a discount will be made of 10 per cent. when the amount is \$50, and 15 per cent. when the amount is \$100, or over.

N. B. The New Catalogues, of every Department, have just been published, with reduced prices, and will be sent to every applicant. Packages for the Western States, can be sent by way of the New York canal, or by New Orleans, or by the way of Philadelphia and Baltimore, through Pittsburgh, Wheeling, &c.

All Proprietors of Nurseries, and Venders of Seeds, &c. are invited to visit and inspect our establishment.
